FRIDAY, May 18, 1906.

Henry M. Bosworth, of Lexington, Treasurer of Kentucky, was seriously hurt by being thrown from his buggy last Saturday.

Representative Bennett has introduced a bill authorizing the Warfield Coal & Salt Company to construct a bridge across Tug Fork of Big Sandy river.

The Big Sandy News, Editor Conley's excellent paper, has been enlarged to a six-column quarto. It is one of the best newspapers in the State—Cynthiana Democrat.

"Let us have no more talk in the Senate or in the country about this iron man in the White House. He is clay, and very common clay at that," was the closing sentence in Senator Bailey's speech Saturday.

Virgil McKnight, Representative from Mason county in the Legislature, announces his candidacy for Congress, from this, the Ninth district, in opposition to Rolla K. Hart, of Fleming county, subject to the action of the Democratic convention or primary.

A race horse man has given out the statement that he can buy the entire state of Kentucky, including the government, for \$20,000. The gentleman is a piker. It requires at least \$20,000 to secure a congressional nomination, says Jim Allen, of the Cynthiana Democrat.

The day of cheap newspapers is drawing to an end. The Postoffice Department has decided to refuse second-class rates of postage to papers and magazines furnished below cost, and giving premiums to secure subscribers; and the result will be the death of many papers run only for advertising purposes.

The rapid development in the field of preventive medicine and the knowledge that almost half of the sickness and deaths in Kentucky every year are due to domestic pestilence, consumption, typhoid fever, dysentery, scarlet fever, diphtheria, cholera infantum and other communicable diseases, is arousing more and more popular attention every year, and will soon make the State Board of Health one of the most important and useful branches of the State government.

On account of what they regard as the hardships imposed by the new Kentucky law on rectifiers, Walsh & Co., prominent rectifiers of Covington, have decided to move to Lawrenceburg, Ind. Elam Neal, Revenue Collector for Sixth Indiana district, is in Washington to arrange for storekeepers and gangsters to take care of their output.

This action on part of the rectifying company would seem to justify the contention of State Senator Watson in the Legislature last winter, that making a high tax per gallon on the output the unit would drive the business out of the State.

The Supreme Court of the United States upheld the right of the State to revoke the license of any insurance company which asks for the removal to the Federal Courts of any suit brought originally in the State courts. The decision also holds that a foreign insurance company is completely under the control of the State and the license may be revoked at any time, whether the reason is a good one or not. Henry R. Prewitt, State Insurance Commissioner, says the decision is of great importance and means much to the State.

The people of the States are fortunate in having a Supreme Court which believes so strongly in the sacred doctrine of State Rights.

PAINTSVILLE.

Paintsville Herald.

Fred A. Vaughan was at Frankfort the first of the week attending the grand lodge of Red Men. He represented the Flat Gap tribe.

Clyde Lyons and Mrs. Martha Conley were married at the residence of the bride, this city, Saturday night. Rev. Burns Conley officiating.

Two suits for \$2,000 damages each have been filed against the C. & O. railroad by Everett Price and Burns Honeycott, of East Point. They claim to have been badly mistreated on the passenger train on Saturday evening, the 5th.

James W. Auxier, who recently moved from the mouth of John's creek to this place, has purchased an interest in the wholesale grocery establishment of Stafford, Turner and Hager. Mr. Auxier has accepted a position as book-keeper. We understand the firm is to soon be incorporated and will increase its capital to meet the increase of business it is now enjoying.

Walter Preston, son of the late Charley Preston, and grandson of Mrs. Frank Preston, of this city, was hit by lightning during an electrical storm, while playing ball in Central Park, Huntington, W. Va., Tuesday. He was rendered unconscious from the shock and was carried home dead as his friends thought at the time. Physicians were summoned and after five hours work, during which time his life was despaired of, he was brought to consciousness.

Through the enterprise of Jno. C. Mayo, to whom Paintsville and the Big Sandy Valley owes more than any other man, we are to have a fine road from Paintsville to the depot. He has interested the Good Roads department of the U. S. Government and an expert is here working out the proposition. The money will be furnished by the C. & O. railroad, the county of Johnson, and Mr. Mayo. The road will cost probably six or seven thousand dollars, but it will be permanent when built. The road from town to the depot is known far and wide as the worst in the country. Paintsville does not realize all that this road will mean to her.

The "hook" of the automobile will be heard on the road from Paintsville to the depot as soon as the new road is completed. An auto line will add much to the comfort of passengers and will, in all respects, answer the purpose of a street car line. In fact, the auto line will be an improvement over a car line in that the auto line can convey passengers to any part of the town. The expense of operating the auto line will be less than 50 per cent. the cost of operating a street car line, hence the fare will be very reasonable. A Lexington firm will operate the auto line and they promise a splendid service.
